ADORE FLOORS MISSION & ENVIRONMENTAL STATEMENT

Here at Adore Floors Europe we recognise that business leadership carries an economic, social, ecological and ethical responsibility.

We are committed to making a positive impact on our planet. As a proud partner with Crann Trees for Ireland we have contributed to reforestation efforts. Adore Floors Europe has also taken significant steps to reduce plastic waste. Our commitment to environmental responsibility is highlighted by the ISO14001 certification, showcasing our adherence to rigorous environmental management standards.

Adore Floors Europe also encourage our manufacturing partners for commitment into continuous improvement in managing environmental issues, including solar power, proper management and monitoring of waste materials plus the reduction of pollution and emissions into the environment.

As a leading supplier of flooring and wall panelling our goals are to meet our customers' needs and requirements and providing on trend styles with inspiration and motivation.

As Flooring and wall panel experts our manufacturing partners are passionate about helping customers find the perfect solutions for their customers whilst protecting and minimizing their impact on the environment.

Our manufacturing partners will only source virgin raw material from accredited suppliers and use packaging made from recycled or biodegradable material.

Whilst using state of the art machinery every care is taken that all employees are trained to a high standard and rejecting exploitive child labour and forced compulsory labour.

Adore Floors Europe creating beautiful, ecofriendly spaces together for today, tomorrow, and the future.

Paul Brady, CEO Europe
